Overall Height:

14.000 inches

Frequency Rating:

1.000 kilohertz single antenna element and 30.000 megahertz single antenna element

End Application:

Electronic test equipment

Special Features:

78 db at 10 khz, 118dbat 1 m dynamic range; 50 ohms output impedance; 12 inches loop size; type bnc connector; 2 6 volt rechargeable seal lead cells power

Type/model Designation:

650

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A074a0
