**Overall Length:**

105.000 feet

**Overall Height:**

358.000 inches

**Overall Width:**

26.000 feet

**Frequency Rating:**

1.600 megahertz single antenna element and 30.000 megahertz single antenna element

**Radiation Pattern:**

Omnidirectional single antenna element

**Power Rating:**

1000.000 watts peak single antenna element

**Beam Scanning Method:**

Fixed single antenna element

**Design Type:**

Dipole single antenna element

**Mounting Method:**

Guy wire

**Terminal Type:**

Cable w/connector single antenna element

**Special Features:**

End item: rt-1912t(1430 antenna system, operating temperature is -40 celsius to +131 celsius, weight is 135lbs, relative humidity type 0 to 100%, gain is 0 to 6dbi depending on conditions and frequency

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A074a0
