Overall Height:

24.000 feet

Mounting Hole Diameter:

0.312 inches

Mounting Hole Quantity:

4

Frequency Rating:

2.000 megahertz single antenna element and 30.000 megahertz single antenna element

Radiation Pattern:

Omnidirectional single antenna element

Power Rating:

1000.000 watts peak single antenna element

Beam Scanning Method:

Fixed single antenna element

Design Type:

Dipole single antenna element

Mounting Method:

Bolt

Terminal Type:

Cable w/connector single antenna element

Special Features:

Fiberglass construction to prevent corrosion

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
