**Body Style:**

Rectangular

**Overall Length:**

3.740 inches

**Overall Height:**

1.800 inches

**Overall Width:**

3.250 inches

**Frequency Rating:**

4.0 gigahertz single frequency operating

**Unthreaded Mounting Hole Diameter:**

0.194 inches

**Operating Temperature Range:**

-54.0/+90.0 degrees celsius

**Insertion Loss In Decibels:**

0.30 single

**Connector End Design:**

Male

**Actuator Operating Method:**

Solid state

**Actuator Voltage In Volts:**

13.0 or 18.0

**Switch Return Mechanism Type:**

Latching

**Mounting Facility Type And Quantity:**

3 bracket and 3 unthreaded hole

**Material:**

Copper alloy contact (s)

**Precious Material And Location:**

Coated contacts gold

**Precious Material:**

Gold

**Surface Treatment:**

Passivate body outside surfaces

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A158a0
