Body Style:

Rectangular

Overall Length:

3.740 inches

Overall Height:

1.800 inches

Overall Width:

3.250 inches

Frequency Rating:

4.0 gigahertz single frequency operating

Unthreaded Mounting Hole Diameter:

0.194 inches

Operating Temperature Range:

-54.0/+90.0 degrees celsius

Insertion Loss In Decibels:

0.30 single

Connector End Design:

Male

Actuator Operating Method:

Solid state

Actuator Voltage In Volts:

13.0 or 18.0

Switch Return Mechanism Type:

Latching

Mounting Facility Type And Quantity:

3 bracket and 3 unthreaded hole

Material:

Copper alloy contact (s)

Precious Material And Location:

Coated contacts gold

Precious Material:

Gold

Surface Treatment:

Passivate body outside surfaces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A158a0
