Body Style:

Rectangular, terminal/terminals on opposite surfaces

Overall Length:

1.750 inches

Overall Height:

1.530 inches

Overall Width:

1.530 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

Bowman fast track

Input Impedance Rating In Ohms:

50.0

Rf Signal Attenuation In Decibels:

4.0

Temperature Sensitivity Attenuation In Decibels:

0.0004

Frequency Range:

8.500 hertz

Special Features:

Medium power fixed coaxial attenuators

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A20000
