Operating Temperature Range:

-55.0/+85.0 degrees celsius

Voltage Standing Wave Ratio:

1.20 single

Insertion Loss In Decibels:

0.20 single

Connector End Design:

Female

Switch Operation Sequence:

Breaks before makes

Switching Time:

15.0 milliseconds

Switch Return Mechanism Type:

Fail-safe

Special Features:

Type n female connectors; operating voltage is 22 to 32 vdc; dimensions excluding connectors: 5.55 in. X 5.10 in. X 3.50 in;
non-operating temperature -65/+110 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A158a0
