Overall Length:

4.250 inches

Overall Height:

1.260 inches

Overall Width:

1.400 inches

End Application:

For transmission of data

Mounting Configuration:

Four 0.152 inch bolt holes, one located at each corner; operation conditions as specified in mil-e-5400, class v

Unit Type:

Coaxial line or transmission line

Unpackaged Unit Weight:

170.0 grams

Criticality Code Justification:

Agav

Functional Description:

4 stud data bus box coupler w/threaded triaxial connectors

Material:

Aluminum alloy or steel, corrosion resisting

Material:

Aluminum alloy or stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T389-c
