Overall Length:

5.250 inches

Overall Height:

3.310 inches

Frequency Rating:

960.000 kilohertz single antenna element and 1220.000 kilohertz single antenna element and 1030.000 kilohertz single antenna element and 1090.000 kilohertz single antenna element

Operating Temperature Range:

-54.0/+55.0 degrees celsius

Electromagnetic Polarization Type:

Vertical single antenna element

Power Rating:

2.500 kilowatts peak single antenna element

Characteristic Impedance In Ohms:

50.0 single antenna element

Special Features:

Dme transponder; width is 1.1750 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
