Overall Height:

142.100 inches

Frequency Rating:

13.750 gigahertz first antenna and 14.500 gigahertz first antenna

Electromagnetic Polarization Type:

Linear all antennas

Design Type:

Gregorian all antennas

Power Gain In Decibels:

49.30 first antenna

Special Features:

Dual optics; rx-tx; 2-piece precision offset thermoset molded reflector; fine azimuth and elevation adjustments; includes ku-band feed assembly; 3db beamwidth; sidelobe envelope

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
