Overall Height:

23.000 feet

Frequency Rating:

2.000 megahertz single antenna element and 30.000 megahertz single antenna element

Coaxial Connector Series Designation:

N single antenna element

Electromagnetic Polarization Type:

Horizontal single antenna element

Design Type:

Log periodic single antenna element

Terminal Type:

Receptacle, coaxial single antenna element

Power Gain In Decibels:

12.00 single antenna element

Special Features:

Receive only; 50 ohm type n jack; 7 dbi at 6.2 mhz and 12 dbi at 30 mhz gain; 2.0: 1 vswr; 28.5 ft turning radius

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
