End Application:

Misc parts intrr communications lcs 0001

Radiation Pattern:

Omnidirectional all antennas

Beam Scanning Method:

Rotating all antennas

Component Quantity:

2

Design Type:

Turnstile all antennas

Product Name:

Inavy-antenna, fm

Special Features:

Output impedance: 300 ohms; boom length: 10", turning radius: 41", maximum width: 67", vertical height: 10", element dia: 3/8", finish: blue polymer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A074a0
