Product Name:

Navigation antenna

Special Features:

Vor/loc/gs high performance navigation antenna set, mounting on the helicopter tail boom. Low weight/drag, tabular structure to minimize helicopter rotor 'down wash' forces. Contains wide band/high efficiency electrical performance and dc grounding for lightning protection. Set includes pair (2) of towelbar sensor elements each with a bnc output connector and a one-piece dual coax interconnect signal combiner harness with single bnc connector output. Single cable run to the avionics location on a helicopter mi-17

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
