**Mounting Hole Quantity:**

3

**Frequency Rating:**

1616.000 megahertz single antenna element and 1626.500 megahertz single antenna element

**End Application:**

An/tmq-53 meteorological system

**Design Type:**

Helix single antenna element

**Mounting Method:**

Flange

**Terminal Type:**

Receptacle, coaxial single antenna element

**Product Name:**

Iridium antenna

**Functional Description:**

Passive quad helix l-band antenna used with a3la and 9601 satellite modems for the iridium network

**Reference Data And Literature:**

To 31m1-2tmq53-1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A074a0
