

View Online at <https://aerobasegroup.com/nsn/5985-01-562-7295>

Special Features:

Old upper & lower sections can not be interchanged with new. Connection in sectional has been modified from n to bma. This facilitates more connectors for multi element sectionals & improves mating cycles to greater than 1000. The connective junction has been reversed between old & new sectional sections. This provides a water shedding effect that negates the need for the original latex boot.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
