Body Style:

Irregular

Overall Length:

1.500 inches

Overall Height:

0.415 inches

Overall Width:

1.500 inches

End Application:

Esm support un set 2 unit 4a2 isis ssgn fc102

Frequency Range:

Between 8.000 gigahertz and 18.000 gigahertz

Product Name:

Digital variable attenuator, bands 9/10

Special Features:

insertion loss 5.5db; switching time 5 microseconds; input power plus 15vdc at 150 milliamps, minus 15vdc at 75 milliamps; maximum input ttl low level voltage 0.8v, sunk current 1.6 milliamps; min input ttl high level voltage 2.0v, sourced current 40 microamps

Functional Description:

Digital variable attenuator, bands 9/10

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A223a0
