**Overall Length:**

7.000 inches

**Mounting Hole Diameter:**

0.600 inches

**Mounting Method:**

Connector

**Special Features:**

Stub antenna designed to withstand the harsh environments associated with the underside of an aircraft. Antenna radiator is mechanically captivated and is sealed against leakage. All exposed metal surfaces are nickel-plated for corrosion resistance and long service. Bnc connector is standard; vertical polarization; material, nickel plated brass

**Specification Data:**

51351-faa tso government specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A074a0
