Overall Length:

78.220 inches

Mounting Method:

Clamp

End Application:

Used on channel master 1.2m, .6 f/d and 0.875 f/d offset reflector antennae; also others 90cm to 1 meter

Mounting Facility Quantity:

3

Special Features:

Non penetrating roof antenna mount 1.2 meters w/roof pads, grounding lug, 3 in o/d mast; tray type; ballast tailored to your site; uses concrete blocks, 16 to 42 depending on conditions; requires 3 cable clamps/tethers; designed for flat roof; withstands winds to 125 mph

Material:

Steel

Material:

Steel

Surface Treatment:

Zinc and cadmium

Surface Treatment:

Galvanized and cadmium plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A12000
