Body Material:

Steel, stainless

Terminal Material:

Beryllium copper

End Application:

4940-01-551-2884; maintenance facility, transportable

Frequency Range:

26.500 gigahertz

Product Name:

Attenuator, fixed coaxial

Special Features:

Power rating: 2 watts average to 25 degree celcius ambient temperature, derated linearly to 0.5 watts at 85 degree celcius, 500 watts peak; temperature range: minus 55 degree celcius to plus 85 degree celcius; attenuator value: 6 (db); connectors: gold plated; connectors: 3.5mm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A20000
