Body Material:

Steel, stainless

Terminal Material:

Beryllium copper

End Application:

4940-01-551-2884; maintenance facility, transportable

Product Name:

Attenuator, fixed coaxial

Special Features:

Frequency range: dc to 26.5 ghz; power rating: 2 watts average to 25 degree celcius ambient temperature, derated linearly to 0.5 watts at 85 degree celcius; temperature range: minus 55 degree celcius to plus 85 degree celcius; connectors: 3.5 mm, gold plated; attenuation value: 10 (db)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A20000
