Overall Height:

1.300 inches

Overall Width:

6.250 inches

Operating Temperature Range:

-20.0/+35.0 degrees celsius

Special Features:

Nav/comm antenna; 10-36vdc input voltage; 325ma typical input current (vhf navigation input); 270ma typical input comm input current; 3.7 watts typical receive, 28 watts typical transmit input power; integral fuses-nav input: 3 amp fast blow socketed on board; comm input: 7 amp fast blow soldered in board; reverse polarity protected

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
