End Application:

5225-fl (23657) , vhf marine band antenna

Radiation Pattern:

Omnidirectional single antenna element

Power Rating:

30.000 watts peak single antenna element

Characteristic Impedance In Ohms:

50.0 single antenna element

Beam Scanning Method:

Fixed single antenna element

Design Type:

Vertical single antenna element

Terminal Type:

Ferrule single antenna element

Power Gain In Decibels:

6.00 single antenna element

Product Name:

Inavy-antenna, vhf, marine band

Special Features:

Stainless steel ferrule w/std 1 inch 14 thread, includes 20 ft rg-8/x cable and pl-259 connector; swr ly 1.5 at 156.8mhz; bandwidth: 3mhz within 2.0 vswr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A074a0
