Overall Height:

17.000 inches

Frequency Rating:

20.000 megahertz all antennas and 3.000 gigahertz all antennas

Overall Diameter:

19.000 inches

Radiation Pattern:

Omnidirectional all antennas

Special Features:

With radome; single n type output; high vibration/high mobility; broadband diplexer single output; 2 active amplifiers; includes black anodised 1/4" thick base plate; rf connection accessible from bottom of sas unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
