End Application:

Ground to air jt1ds class 2 navigational band communications circuits

Special Features:

Input 1, frequency range 960-1215mhz, maximum vswr 2.0: 1, input impedance 50 ohms, maximum power 250 watts average 1000 watts peak

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
