Mounting Hole Diameter:

0.030 inches

Mounting Slot Width:

0.150 inches

Mounting Hole Type:

Counterbored

Mounting Method:

Unthreaded holes

End Application:

Antenna; p/n sg-303

Special Features:

Hf frequency ranges: 1.8 to 30mhz; output power: 3 to 500 watt (pep)voice cw: dual frequency resonance at 12 and 22mhz; antenna structure two sections, 50 inches each; mount: high voltage insulated 4-way stainless steel rachetmount; feed-through: high voltage wall feed-through bushing(hole+.890in) ; cable: 3ft high voltage wire, one end terminated by a round lug

Material:

Rubber

Material:

Rubber

Surface Treatment:

Paint

Surface Treatment:

Painted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A12000
