**Special Features:**

End item: transmission line, low input driver with diodes indicators, frequency range is dc to 10ghz, rf impedance 50 ohms , switching time 15 msec max, 28vdc

**Terminal Type And Quantity:**

15 solder stud

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A158a0
