Special Features:

End item: transmission line, low input driver with diodes indicators, frequency range is dc to 14ghz, rf impedance 50 ohms , switching time 15 msec max, 28vdc, 1.610 inch long, 2.460 inch wide, 0.900 inch high

Terminal Type And Quantity:

3 plug, coaxial and 7 solder stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A158a0
