Overall Length:

30.500 inches

Overall Height:

1.770 inches

Overall Width:

10.620 inches

Frequency Rating:

190.000 kilohertz single antenna element and 1750.000 kilohertz single antenna element

Product Name:

Ana-75b automatic direction finder antenna

Special Features:

One piece molded shell construction; antenna contains sense and loop elements with matched component solid state amplifiers; power requirement plus or minus 12vdc, 1.5a max.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
