Mounting Method:

Connector

End Application:

5895-01-532-0681, lightweight multiband satellite terminal (lmst) 2.5 meter antenna

Basic Shape Style:

Irregular

Product Name:

Outer panel assemblt, heated-2.5m reflector

Special Features:

Specific finish: paint all surfaces except as noted iaw finish specification 3020292, type xv, final film shall be aliphatic polyurethane, paint is lusterless green 383 carc, color nbr 34094 iaw fed-std-595, prime first; bond heaters to surface after priming and painting; apply foam insulation per drawing instructions; apply power to the finished assembly using appropriate power source and have the finished heater element cycle until thermostat actuates and make sure surface temp of front skin not exceed settings iaw dwg 3092223

Special Markings:

Id cage/part number (without a space) iaw 7012360, method 7 at location shown on drwg; mark ref des iaw mil-std-13231, group ii or iii in .06 to .12 high characters using contrasting color at location shown on drwg

Surface Treatment:

Enamel synthetic lusterless

Surface Treatment:

Enamel, synthetic, lusterless, olive drab

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A12000
