Product Name:

Miniature ceramic mixed attenuator

Special Features:

Operating temperature range -55 to + 100 degrees celcius; storage temperature -55 to + 100 degrees celcius; features wideband dc to 7000 mhz; applications: aqueous washable and power leveling and impedance match improvement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A20000
