**Product Name:**

Miniature ceramic mixed attenuator

**Special Features:**

Operating temperature range -55 to + 100 degrees celcius; storage temperature -55 to + 100 degrees celcius; features wideband dc to 7000 mhz; applications: aqueous washable and power leveling and impedance match improvement

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A20000
