Overall Length:

1.340 inches

Impedance Rating In Ohms:

50.0

Overall Diameter:

0.560 inches

Frequency Range Rating:

+0.000/+18.000 gigahertz

End Application:

Cass/otps

Voltage Standing Wave Ratio:

1.25

Coaxial Connector Series Designation:

Tnc

Connector End Design:

Female

Power Rating:

2.000 watts average

Termination Type:

Connection coaxial

Operating Position:

All positions

Cooling Method:

Self-cooled

Product Name:

Inavy-dummy load, electric

Special Features:

Materials: body-passivated stainless steel, contact-gold plated, insulator-ptfe

Style Designator:

Coaxial mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19800
