Special Features:

Fabs v2 portable, lightweight mast system. Can be deployed quickly by extending 4 foot (1.2 meters) mast sections to heights from 8 feet (2.5 meters) to 60 feet (18.3 meters) with lightweight payloads. This system can be deployed guyed or un-guyed depending on wind or mission profile. The adjustable tripod allows for level deployment on uneven ground. Each tube section is made from high strength carbon fiber, giving high stability with a light weight mast. The system comes with a 6 inch (150 mm) diameter payload adapter. Features 2 inch (50 mm) diameter carbon fiber tubes
