**Furnished Items:**

Mounting kit and mounting hardware

**Overall Diameter:**

80.000 inches

**Environmental Protection:**

High wind resistant and weather resistant

**Electromagnetic Polarization Type:**

Circular single antenna element

**Beam Scanning Method:**

Fixed single antenna element

**Design Type:**

Parabolic single antenna element

**Product Name:**

Channel master type 180 1.8m offset antenna

**Special Features:**

Thermoset-molded w/network of support ribs, az/el mount constructed from heavy-gauge steel; specially formulated power paint protect from weather related corrosion; reflector: 80x80x9 in. 105 lbs, mount: 27x12x12 in. 51 lbs.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A074a0
