Furnished Items:

Base and connector and mounting hardware

Overall Length:

35.000 inches

Mounting Hole Diameter:

0.500 inches

Mounting Hole Quantity:

4

Frequency Rating:

225.0 megahertz and 450.0 megahertz single antenna element

Coaxial Connector Series Designation:

N single antenna element

Electromagnetic Polarization Type:

Slant linear single antenna element

Radiation Pattern:

Omnidirectional single antenna element

Power Rating:

100.0 watts average single antenna element

Beam Scanning Method:

Oscillating single antenna element

Design Type:

Dipole single antenna element

Mounting Method:

Unthreaded hole

Terminal Type:

Connector, receptacle single antenna element

Special Features:

686 tan color

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
