**Frequency Rating:**

10.0 kilohertz and 40.0 megahertz all antennas

**Product Name:**

Universal broadband antenna simple type

**Special Features:**

May be used with 50ohm input rfi meter or calibrated receiver to measure or detect extremely low level electric field, radiated signals within that range, eimensions are 12 inch x 10 inch x 6inch

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A074a0
