Overall Height:

100.0 millimeters

Overall Diameter:

90.0 millimeters

End Application:

Presision surveillance equipment

Product Name:

Gps antenna

Special Features:

Connects to tnj jack on rear of panel, frequency l1 1575 +/- 2mhz, impedance - 50 ohm, vswr - 1.5 or less, horizontal directivity - 360 degrees, gain - 40dbi typ, coaxial ratio - 3db max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A074a0
