Switching Time:

75.0 milliseconds

Product Name:

Wg/sma dual sw., white paint, sealed

Special Features:

Frequency range for waveguid and coax is 17.7 to 21.3; insertion loss is .1. Db maximum for waveguide and 0.50 db typ for coax; voltage is -18 vdc to -24 vdc; life is 100, 000 operations, min; satin white enamel paint on switch body and coax section

Terminal Type And Quantity:

4 quick disconnect, female

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A158a0
