End Application:

Low power high power distance measuring equipment (lphp dme)

Design Type:

Bidirectional

Product Name:

Directional coupler

Special Features:

Coupling (db) () 30; directivity (db) (min) 25; vswr (max) 1.15: 1; power rating, forward 500, reverse 500; peak pwr rating of 10kw; 50 ohm impedance stanard; operating temp -65 degrees c to +150 degrees c; mounting holes 0.156" diameter through in 2 places

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-c
