Body Material:

Steel, corrosion resisting

Pilot Diameter:

Between 0.8120 inches and 0.8125 inches

Overall Length:

2.4910 inches

Flange Diameter:

Between 1.2497 inches and 1.2500 inches

Shaft Length:

0.4910 inches single shaft

Fragility Factor:

Moderately rugged

Body Size:

13

Rotor Input Voltage Rating In Volts:

35.0

Frequency In Hertz:

400.0

Rotor Input Current Rating:

34.0 milliamperes

Mounting Surface To Terminal End Distance:

2.0000 inches

Terminal Location:

Rear

Terminal Type And Quantity:

4 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07800
