Storage Temperature Range:

-40.0/+85.0 degrees celsius

End Application:

2947 (51190), test set radio; wsd: general purpose electronic test equipment (gpete)

Product Name:

Rotary optical encoder

Special Features:

3/8" d x 3/8" l threaded bushing; 1/4" dia, plain end shaft style; 5/9" shaft length; axial, multi-purpose pin terminal; 64 cycles per revolution

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
