| Cross Sectional Shape                           |
|---|
| Cross Sectional Shape:<br>Round                 |
|   |
| Electrical Resistance:                          |
| 49.00 ohms impedance                            |
| Tempurature Rating:                             |
| 200.0 degrees celsius                           |
| Cross Section Outside Diameter:                 |
| 0.141 inches                                    |
| Termination Type:                               |
| Connector plug both ends single conductor       |
| Conductor Quantity:                             |
| 1   |
| Conductor Form:                                 |
| Solid single conductor                          |
| Round Conductor Size:                           |
| 19 awg single conductor                         |
| Conductor Arrangement And Quantity:             |
| 1 coaxial                                       |
| Terminal Commercial And Government Entity Code: |
| 16301 both ends single conductor                |
| Material:                                       |
| Steel core conductor single conductor           |
| Surface Treatment:                              |
| Silver core conductor single conductor          |
| Shelf Life:                                     |
| N/a   |
| Unit Of Measure:                                |
|   |
| Demilitarization:                               |
| Yes - demil/mli                                 |
