Special Features:

Conductor q type 4, stranded conductors, conductor material soft copper conforming to mil-w-3861, pure tin coated conductors, strand qty per conductor 133, strand diameter per conductor 0.0111 in., primary insulation per conductor polyvinyl chloride, cable protective covering plastic tubing, voltage rating per conductor 3000 volts rms, 1 ea ms2518a32-17s connector plug on first end, 4 ea ms25036-16 terminal lugs on second end, o/a cable lg 13 ft 5 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
