**Cross Sectional Shape:**

Round

**End Application:**

F-16 aircraft

**Conductor Quantity:**

1

**Special Features:**

Item length 45.00 in.; two female connectors 0.63 in diameter knurl type; conductor made of dead soft oxygen-hydrogen free copper; inner shield of flat copper; item capable of operating at 500.0 vrms; impedance shall be 50.0 ohm; capacitance shall be 25.0 pf/ft at altitude variations of minus 65.0 degrees cent. To plus 125.0 degrees centigrade

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A077a0
