Special Features:

Material: n/n-conductive, with a volume resistivity of 10-9 ohm-cm. Min, measured per astm d-257, j, ket-chloroprene rubber type jn-l per mil-1-3930, color black jacket-wall thickness of each branch as follows, molded section, shall utilize a suitable, non-corrosive, hydrolytically stable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A077a0
