Special Features:

Conductors- soft annealed copper, 0.0025 x 0.030 inch, tinned; insulation- fluorinated ethylene propylene; rated voltage- 600 volts ac; rated current- 2 amperes; rated temperature, -55 degrees celsius to +150 degrees celsius; outside conductors of staggered configuration with odd number of conductors must be short; number of conductors, 23; length of conductors, 1.100 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
