End Application:

Meteorological data system an/tmq-31

Component Quantity:

3 and 2

Joint Electronics Type Designation System Item Name:

Generator cable group

Joint Electronics Type Designation System Item Type Number:

Oa-9093/tmq-31

Component Controlling Agency:

Usarmy communication electronics command

Component Name:

Cable assembly, power electrical; reel cable

Component Identifying Number:

5029039-1 part no. And 5029039-2 part no. And 5029040 part no. And c5076780-1 part no.

Reel Controlling Agency:

Usarmy communication electronics command

Functional Description:

Connects the shelter group with primary power from the generator trailer or a commercial power source

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T387-c
