End Application:

Cable assembly, radi

Product Name:

Cable assembly, pylon video pas thru-cable-w2

Special Features:

Assembly consists of 1 connector elec twnax p/n st5m1425a01s material specification st5m1425 remarks: bcn twinax straight plug, 1 connector elec twnax p/n st5m1426a001 material specification st5m1426 remarks: twinax recept jam nut, 6.0 ft cable elec rf twin p/n m17/176-00002 material specification mil-c-17/176 remarks: 77 ohm .129 od, 2/24 awg, 3 strap plastic ident p/n ms3368-4-9d remarks: 3 strap tie color-natural, wiring per with the installation requirements of mil-w-5088, crimp contacts shall meet the tensile and electrical requirements of mil-c-22520, hot stamp marking per mil-m-81594 color white .12 inch high , assembly shall be tested for insulation breakdown at 500 vdc or vac (5 second max) between all terminals that are not common and between terminals and connector shell, the leakage resistance at the test voltage shall be greater than 10 megohms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
