Cross Sectional Shape:

Round

End Application:

Uyk-44 osm e/i fscm 90536

Termination Type:

Connector plug 1st end all conductors

Conductor Quantity:

8

Strand Quantity Per Conductor:

2 all conductors

Conductor Form:

Stranded all conductors

Product Name:

Cable assembly, w46--vme 10c o to sem chassis

Strand Awg Size Per Conductor:

28 all conductors

Conductor Arrangement And Quantity:

2 twisted pair and 4 singles

Group Quantity:

3

Conductor Grouping Arrangement Type And Quantity:

Singles third group

Special Features:

Sleeving located 17 in. From 1st end and at 22.5 in. From 1st end. 2nd end attaches to adapter, cable to connector din type 96 position; shim, assembly - - cable to connector adapter, nylon lacing and tying type i, size 3, finish b, natural; cable assembly is 31.0 in. From 1st end to adapter

Color:

Black core conductor all conductors

Material:

Plastic polyolefin 3rd position sleeve all conductors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
