Overall Length:

22.250 inches

End Application:

Electronic control

Product Name:

Integrated drive electronics (ide) cable

Special Features:

The connector is a 40 position insulation displacement connectors (idc) with strain relief; this item has three (3) connectors first to the second connector is 15.50 inches in dimension length and the second to the third connector is 6.75 inches in dimension length

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
